

Two interesting seminars were held at Keio University School of Medicine for 2 days in a row

The following two interesting seminars have been held at the Research Park Building of Keio University School of Medicine on July 6th and 7th, 2015 respectively.

1. “The resource of carcinoma cells for luminescent imaging and its optimization for researches”

1) Chairman

Prof. Eiji Kobayashi M.D., Ph.D., Department of Organ Fabrication, Keio University School of Medicine

2) Lecturer

Prof. Takashi Murakami M.D., Ph.D., Laboratory of Tumor Biology, Faculty of Pharmacy, Graduate School of Pharmaceutical Sciences, Takasaki University of Health and Welfare

3) Venue and time

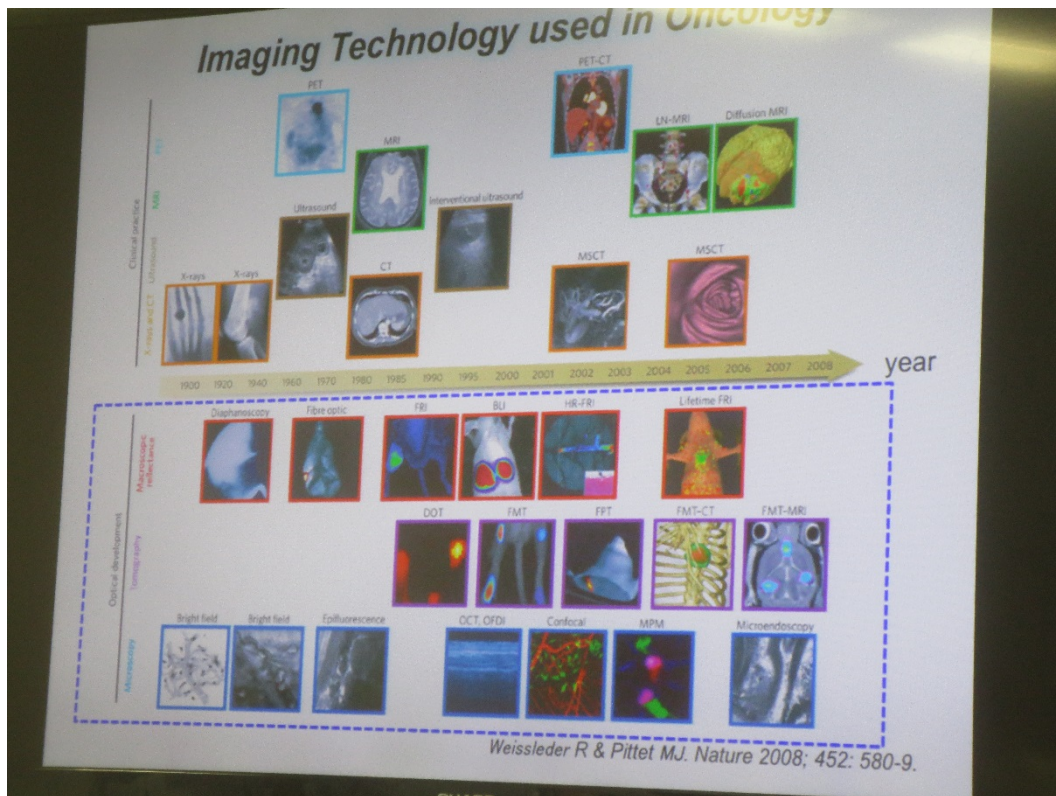

7th floor conference room of Research Park Building on July 6th between 17:00 and 18:00pm

4) Sponsor

Taiyo Nippon Sanso

(Prof. Murakami's lecture on the resource of carcinoma cells)

(Imaging Technology used in oncology)

2. “Transgenic pigs and clone pigs for translational researches focusing on disease model”

1) Chairman

Prof. Keiichi Fukuda M.D., Ph.D., Department of Cardiovascular Medicine, Keio University School of Medicine

2) Lecturer

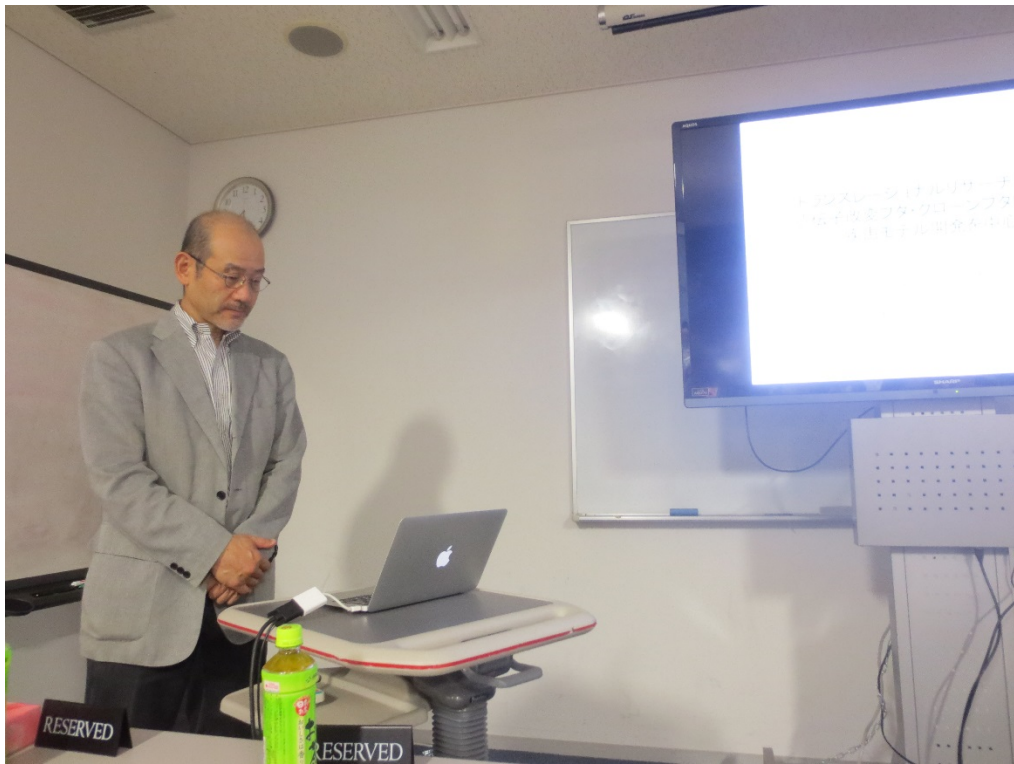

Hiroshi Nagashima Ph.D., Director, Laboratory of Developmental Engineering, Department of Life Sciences, School of Agriculture, Meiji University

3) Venue and time

2nd floor conference room of Research Park Building on July 7th between 19:20 and 20:20pm

4) Sponsor

Bristol-Myers Squibb and Pfizer Japan Inc.

(Director Nagashima Ph.D.'s lecture on transgenic and clone pigs)
